

Bassem Moheb Ahmed Hegazy

Material Controller

✉ Bassemmoheb95@gmail.com 📞 +201096898659 🔗 linkedin.com/in/bassem-hegazy ➤ Military Status: Exempted

Detail-oriented and results-driven Material Controller with extensive experience in material management and inventory control across diverse projects. Proven ability to lead teams and optimize processes for efficient material tracking and distribution, ensuring compliance with industry standards. Adept at collaborating with cross-functional teams to support project objectives and enhance operational efficiency. Strong leadership, analytical, and problem-solving skills, complemented by a commitment to training and developing staff to improve performance. Proficient in key software systems, including Oracle. Applications Cloud and SAP MM, BFS Cloud to facilitate data management and reporting.

Work Experience

Apr 2025 - Present

■ **Material Controller**
Siemens energy S.A.E
Owner: Egyptian Electricity Holding Company
Projects:
ALBURULLUS POWER PLANT.
Scope of work: Operation & Maintenance
Responsibility

- Leading and supervising material control operations across three major Siemens power plant in Egypt.
- Coordinating with procurement, warehousing, and operations teams to ensure accurate and timely supply of materials.
- Monitoring inventory levels and managing stock movements using ERP systems to prevent shortages or overstock.
- Reviewing and verifying material requests and technical specifications in accordance with project requirements.
- Overseeing the inspection, receiving, tagging, and proper storage of materials in compliance with quality and safety standards.

Oct 2024 - Apr 2025

■ **Material Control Team Leader**
Elsewedy Electric Infrastructure
The north coast of Egypt (Elsewedy Electric projects).
Owner: Ministry of Water Resources and Irrigation
Client: Egyptian Armed Forces Engineering Authority
Projects:
The project of collecting the untreated agricultural wastewater (Idku - Barsiq - Abu Qir) to pour into the public drain with a capacity of 3 million ms/day.
South El-Dabaa Project 2200 mm Pipelines.
South El-Dabaa Project 2500 mm Pipelines.
Railway Steel Bridge - El-Hammam Project.
Scope of work: Construction, infrastructure, and pipe jacking, steel structure materials

Responsibility

- Leading the material control team across major infrastructure projects, ensuring accurate planning, procurement tracking, and timely material availability.
- Managing the full lifecycle of materials for large-scale pipeline and steel structure projects, including 2200 mm and 2500 mm pipeline works in South El-Dabaa and the Railway Steel Bridge – El-Hammam Project.
- Coordinating with procurement, logistics, site engineers, and warehouse teams to maintain optimal stock levels, minimize material wastage, and prevent project delays.
- Implementing and overseeing robust material tracking systems for civil and mechanical construction phases, including pipe jacking and steel structure works.
- Preparing material requests (MRs), inventory reports, and material consumption analyses for submission to the client and internal stakeholders.

Apr 2023 - Oct 2024

■ **Material Control Senior Specialist**
Elsewedy Electric Infrastructure
The project of collecting the untreated agricultural wastewater (Idku - Barsiq - Abu Qir) to pour into the public drain with a capacity of 3 million m³/day

May 2021 - Apr 2022

Owner: Ministry of Water Resources and Irrigation
Consultant: Hydro-Envir. & Infra Str. Studies
Client: Egyptian Armed Forces Engineering Authority
Scope of work: Construction, infrastructure, and pipe jacking

Responsibility

- Managing warehouse operations, including receiving, storing, issuing, and tracking materials for a large-scale infrastructure project.
- Utilizing **Oracle Applications Cloud** for logging material transactions, ensuring real-time inventory visibility.
- Collaborating with procurement and construction teams to synchronize material availability with project milestones.
- Reducing material storage costs by 15% through strategic warehouse layout planning and optimized inventory systems.
- Training warehouse personnel on ERP system use, HSE practices, and material control procedures.

Mar 2020 - May 2021

Material control Specialist
Hassan Allam Construction
The Presidential Palace in the New Administrative Capital

Owner: Egyptian Presidential Authority
Consultant: Sites for Engineering and Consulting
Client: Egyptian General Intelligence
Scope of work: Construction and Facilities.

Responsibility

- Supervising all phases of warehouse operations, ensuring timely issuance and accurate tracking of materials using SAP MM.
- Leading procurement coordination and vendor interaction to guarantee material quality and on-time delivery.
- Monitoring inventory levels and initiating corrective actions to resolve discrepancies and prevent delays.
- Supporting cost control efforts by identifying excess stock and optimizing reordering practices.
- Enhancing reporting accuracy through data analysis and regular audits of stock movement records.

Feb 2019 - Jan 2020

Material Control Specialist
Hassan Allam Construction
Black Sand Plant Project
Owner: Egyptian Company for Black Sand
Consultant: Cosmos
Client: Egyptian Armed Forces Engineering Authority
Scope of work: Construction and Facilities.

Responsibility

- Handling material movement, documentation, and inspection across all warehouse areas.
- Implementing strict compliance with storage, HSE, and quality control guidelines.
- Coordinating with logistics teams to ensure uninterrupted delivery of required materials to the site.
- Tracking material transfers through **SAP MM** to maintain accountability and support project planning.

Material coordinator
Carlo Gavazzi Bonatti Group
West Nile Delta Project
Owner: Deutsche Erdoel & British Petroleum
Consultant: Bechtel
Client: British Petroleum
Scope of work: Oil & Gas (Construction)

Responsibility

- Coordinating daily material operations, including receipts, issues, and stock reconciliation.
- Utilizing Oracle Applications Cloud to monitor and document material flows.
- Aligning material delivery schedules with project engineering and execution plans.
- Participating in safety inspections and ensuring proper handling of critical materials.

Oct 2018 - Jan 2019

■ **Material Control**
Carlo Gavazzi Bonatti Group
Zohr Development Project
Owner: EGAS
Consultant: ENPPI
Client: Petrobel & Eni
Responsibility

- Managing inventory transactions and maintaining accurate records for oil & gas construction materials.
- Facilitating coordination with logistics and procurement teams to meet project delivery schedules.
- Verifying documentation and conducting quality checks on received items using Oracle Cloud systems.

Aug 2017 - Aug 2018

■ **Storekeeper**
MEGA for Construction & Industries
West Damietta Power Plant 4×125 MW steam power station.
Owner: East Delta Electricity Production Company
Consultant: PGESCo.
Client: Alkharafi Egypt
Responsibility

- Overseeing material receiving, inspection, and secure storage for power plant equipment and consumables.
- Maintaining inventory records, tracking material usage, and coordinating with project managers to align supply with site demands.
- Supporting procurement teams by providing detailed reports on material availability and stock conditions.

Career Skills

- **Material Lifecycle Management:** Managing the complete lifecycle of materials from receiving and inspection to issuing and stock reconciliation across large-scale construction projects.
- **Inventory Optimization:** Implementing inventory tracking systems and cycle count procedures to ensure high accuracy and minimize material wastage or shortages.
- **ERP System Integration:** Utilizing Oracle Applications Cloud and SAP MM for accurate material transactions, reporting, and real-time visibility of inventory movements.
- **Warehouse Operations Supervision:** Overseeing warehouse layouts, material handling workflows, and storage procedures to improve operational efficiency and reduce storage costs.
- **Cross-Functional Coordination:** Collaborating with procurement, logistics, and engineering teams to align material availability with project timelines and technical specifications.
- **Regulatory & Safety Compliance:** Ensuring compliance with HSE standards, confined space protocols, and fire safety training in all material handling and storage operations.
- **Procurement Process Support:** Assisting procurement teams by tracking material requirements, preparing inventory reports, and supporting vendor communication for timely delivery.

Personal Skills

- Adaptability.
- Teamwork.
- Communication.
- Time Management.
- Detail-Oriented.
- Initiative.
- Reliability.
- Conflict Resolution.
- Leadership.
- Critical Thinking.

Software Skills

- Oracle Applications Cloud.
- SAP MM.
- MS Office (Excel, Word, PowerPoint).
- Inventory and Material Control Systems.
- Adobe Photoshop.
- AutoCAD.
- Network Troubleshooting.

Education

2017

■ Bachelor of Commerce
Faculty of Commerce, Mansoura University

Training & Certifications

- ICDL Certificate.
- First Aid and Emergency.
- Fire Fighting Training.
- Confined Space Training.
- Certified Supply Chain.
- Gas Test Training.
- SCBA Training.
- H2S Training.
- Fire Watcher Training.
- Work at Height Training.

Languages

- **Arabic** | Native speaker.
- **English** | Proficient.
