PROFESSIONAL SUMMARY

Warehouse & Logistics Professional with over 15+ years of experience optimizing high-volume supply chains, including defense logistics and contractor-operated distribution hubs. Skilled in warehouse operations, **LCL/FCL freight movement, SAP-driven inventory control, and process improvements using lean methodologies. Proven expertise in regulatory compliance (ITAR/DFARS/OSHA).** Proven ability to lead cross-functional teams, reduce operational costs, and enhance delivery efficiency across the Middle East, Europe and Africa.

- ✓ Oversaw daily warehouse ops, team shift planning, inbound/outbound flow, and KPI tracking
- ✓ Improved inventory accuracy, reduced stock discrepancies using SAP automation
- ✓ Deployed RFID and documentation protocols to cut customs delays and port dwell time

CORE COMPETENCIES

- **Warehouse Operations:** Shift scheduling, cross-docking, cycle counts, order fulfillment
- **Supply Chain Systems:** SAP EWM/TM, WMS, DSS, FLIS, RFID, KPI dashboards
- **Defense Logistics:** ITAR/DFARS compliance, classified/hazardous goods handling
- **Process Optimization:** Freight cost reduction, route planning, error prevention
- **Leadership:** Training, cross-functional collaboration, performance monitoring

PROFESSIONAL EXPERIENCE

Transportation Lead

Trident Engineering & Procurement, Inc. – Bahrain (Aug 2013 – Mar 2025)

Led warehouse and freight operations for Defense logistics programs across the Gulf region.

Oversaw end-to-end movement of containerized and break-bulk shipments using SAP EWM and automated tracking systems.

- Supervised daily warehouse activities including staging, picking, labeling, and dispatch of high-security freight
- Managed FCL/LCL shipments, routing and consolidation to maintain on-time deliveries.
- Streamlined customs clearance by integrating BOLs, TCMDs, HS codes, and RFID with AESDirect and 19CFR systems
- Participated in weekly and monthly coordination meetings with stakeholders and ensured timely submission of CDRL and KPI reports to management for improved logistics visibility and compliance.
- Trained and supervised a team of 15+ warehouse and logistics staff on SAP EWM/TM, DSS, and FLIS
- Partnered with global vendors to reduce freight cost and enhance transit KPIs

Admin Assistant – Supply Chain IT Support

Al-Ghanim Industries – Kuwait

Supported inventory and reporting systems within the warehouse environment using SAP modules.

- Resolved 95% of inventory discrepancies across 10,000+ SKUs using SAP MDM/EWM dashboards
- Automated KPI reporting system, reducing manual reporting time by 10+ hours weekly
- Enhanced coordination between IT, inventory control, and warehouse floor teams

Warehouse Specialist

KGL Logistics – Kuwait

Managed secure storage and outbound movement of hazardous and classified goods in compliance with Defense protocols.

- Supervised warehouse team in receiving, put-away, and dispatch processes for sensitive shipments
- Radio Frequency Identification (RFID) tracking for high-risk materials, reducing handling errors by 30%
- Coordinated daily cycle counts and reconciled discrepancies, improving stock accuracy
- Maintained documentation and compliance with ITAR/DFARS and OSHA hazardous materials standards
- Liaised with internal teams to optimize order turnaround and fulfillment accuracy

TECHNICAL SKILLS

- **Systems:** SAP (EWM, TM, GTS, MDM, FIORI), WMS, DSS, FLIS, TAN
- **Tools:** Microsoft Excel, IBS Container Management
- **Compliance:** ITAR, DFARS, OSHA (Certified 2012)
- **Certifications:** Microsoft Certified (DTP), Hazardous Materials Handling, First Aid CPR
