Open to opportunities in Supply Chain, Logistics & Operations Management

PROFESSIONAL SUMMARY

Results-driven Industrial Engineering graduate with hands-on experience leading supply chain operations, inventory control, and multi-phase construction coordination. Proven ability to drive measurable efficiency gains — reducing inventory discrepancies by 15% and improving order accuracy by 20% through data-driven tracking methods. Adept at leading cross-departmental teams, streamlining logistics workflows, and monitoring KPIs to identify and act on improvement opportunities. Committed to operational excellence in fast-paced, collaborative environments.

PROFESSIONAL EXPERIENCE

Inventory Controller

Apr 2025 – Jul 2025

Al-Wefag Trading Co | Jeddah, Saudi Arabia

- Reduced inventory discrepancies by 15% by implementing improved FIFO tracking methods and tightening purchase order verification.
- Led a cross-functional team of 4 to streamline receiving and returns processes, cutting processing time by 20%.
- Coordinated daily with procurement, warehouse, and finance departments to align stock levels with operational demand.
- Achieved 98% stock accuracy across all product lines by introducing a structured weekly cycle-count system.

Site Engineer

Nov 2024 – Apr 2025

Diamond Support Construction | Jeddah, Saudi Arabia

- Supervised a team of 6 workers across demolition and site preparation phases, achieving zero safety incidents over 5 months.
- Coordinated material transportation schedules with 3 external suppliers, reducing delivery delays by 25%.
- Resolved on-site engineering challenges by collaborating with project managers and contractors to keep timelines on track.

Supply Chain Operator

May 2024 – Nov 2024

Starlink Logistics Company Ltd | Jeddah, Saudi Arabia

- Managed end-to-end logistics for 10+ clients across multiple sectors, maintaining a 95%+ on-time delivery rate.
- Collaborated cross-functionally with sales, warehousing, and customer service teams to resolve fulfillment bottlenecks.
- Monitored and reported on 8 KPIs weekly, identifying trends that led to a 10% reduction in operational costs.

EDUCATION

Bachelor of Science in Industrial Engineering

Yarmouk University, Irbid, Jordan

Hijjawi Faculty for Engineering Technology

CORE SKILLS

Inventory Control & Management

Supply Chain Operations

FIFO / Stock Rotation Methods

Data Analysis & KPI Monitoring

Cross-Departmental Collaboration

Leadership & Team Coordination

Microsoft Office (Excel, Word, PowerPoint)

Power BI

CERTIFICATIONS

Microsoft Office Certification

2023

Supply Chain Management Certification

2021
