-

PERSONAL STATEMENT

"I seek to apply my experience in supply chain management and logistics to improve efficiency, reduce costs, and increase customer satisfaction by developing effective strategies for inventory management, transportation planning, and operational process optimization. I aim to work within a team that supports innovation and sustainability to achieve best-in-class logistics practices and ensure a smooth and sustainable flow of supplies across all stages of the supply chain."s.

EXPERIENCE

- University training at Wahat Al Mostahlek Company Department (Purchases - Warehouse - Inventory)
For six months

-In the Inventory Management department, the most important tasks I worked on were accelerating the product purchasing cycle, as well as maintaining inventory levels, forecasting, setting reorder points, and reserve stock.

-In the warehouse department, my main tasks were to expedite the receiving and distribution process, as well as inventory counting, warehouse restructuring, and disposing of damaged products as quickly as possible.

- Professional Supply Chain Course Certificate
