Education

Bachelor of Interior Design
Middle East university
GPA 3.64
2019-2024

- **Thesis:** Redesigning Hospitals to Improve Efficiency: focused on redesigning hospital interiors with the goal of improving spatial efficiency, patient experience, and staff workflow. The project involved rethinking of the layout and design of key hospital areas such as receptions, waiting areas, patient rooms, and staff zones to create a more functional, healing, and human-centered environment.
