2010- 2015
Grade: Distinct

LANGUAGE

Arabic: Native or Bilingual
English: Conversational

I am an Interior Designer with a strong ability in concept creation and idea development, passionate about delivering out-of-the-box solutions. I have extensive experience in working with diverse artistic trends, covering residential, administrative, commercial, and tourism environmental design. Additionally, I specialize in kitchen design and custom furniture production.

WORK EXPERIENCE

Sales Engineer

Holoul Kitchen and Cabinets (KSA)
July 2024- until now

Creative furniture, kitchens, and cabinetry designer with experience in Italian products (LUBE, Creo), sales, persuasive communication, deal closing, custom solutions, wooden interior décor, and material selection, combining design expertise with practical execution.

Furniture designer

Shelter Furniture (EGY)
March 2023- June 2024

The company focuses on selling ideas and providing solutions rather than relying solely on product sales, enabling us to design diverse furniture units with various materials to suit all budgets. I work as a furniture designer and also support sales and fixture needs when required.

FF&E

Amer Vision Group (EGY)
March 2022- March 2023

Presidential Services – FF&E Engineer specializing in accessories, hotel furnishing, artwork curation, and floral arrangement, executed in alignment with presidential protocol.

Freelance Interior Designer

Nina Home (KSA)
Jan 2021 - Aug 2021

Worked on 2D and 3D villa design, enhancing software proficiency and creativity while adhering to budget constraints and team leader directives.

Internship

Xtend Furniture (EGY)
Sept 2019 - Dec 2020

Proficient in standard drafting techniques and furniture/kitchen design, with expertise in material selection such as MDF with laminates (Poly Lac, Lami Gloss, UV Lac, Acrylic). Skilled in generating creative concepts for various interior design elements.

SKILL

Professional interior and furniture designer skilled in photography, sketch modeling, architecture, Adobe Photoshop, contextual and conceptual design. Experienced in Italian products (LUBE, Creo), anthropometry, ergonomics, project management, negotiation, 3D design software (AutoCAD, SketchUp, 3ds Max), lighting and ventilation systems, sustainable design solutions, problem-solving, critical thinking, attention to detail, flexibility, communication, teamwork, and working under tight deadlines.
