SUMMARY

Multidisciplinary Architect with a strong focus on interior design and event architecture, bringing over four years of experience in designing and executing spatial solutions across commercial, cultural, and exhibition sectors. Adept at translating client visions into innovative, buildable designs with a keen eye for detail, user experience, and brand integration. Proven ability to deliver fully integrated design solutions that meet the highest standards of creativity, practicality, and execution within fast-paced and dynamic project settings.

EDUCATION

Bachelor of Architecture and Environmental Planning 2020
Hadhramout University of Science and Technology

LANGUAGES

ARABIC: Native
ENGLISH: Intermediate

CERTIFICATIONS & TRAINING

- Completed field training at the New Administrative Capital project site - Egypt
- Diploma in Technical Office Work - Egypt
- Diploma in Site Execution and Finishing Works - Egypt
- Interior Design Course - Egypt
- Autodesk Revit (Architectural) - Egypt
- V-Ray Rendering Engine for 3ds Max - Egypt
- OSHA Safety and Health Training Course - Egypt
- Summer Internship - Architectural Pathways - Yemen
- Construction Techniques in Mud Architecture - Yemen
- 3ds Max Software Course - Yemen

MEMBERSHIPS

- Participating Member of the University Student Forum - Yemen

SKILLS

- SketchUp, Corona Render, AutoCAD, Enscape & Ps, Ai, Pr
- Event Planning & Management
- Concept Development
- Client Relations
- Stakeholder Engagement
- Creative Direction
- 3D Visualization & Architectural Rendering

WORK EXPERIENCES

- Senior 3D Designer** July 2024 - Present
EXCO Co. - (Capital Holding Company)
Riyadh, Saudi Arabia
 - Led creative direction and 3D design for over 8 national events and exhibitions, delivering innovative spatial solutions that align with brand identity and audience experience.
 - Managed full design scope for booths, stages, and gateways, as well as interior spaces for both event and office environments.
 - Delivered standout projects including:
 - EDGEEX (Education Global Exhibition) - Executed complete 3D design for all booths and stages with the team, creating a cohesive and engaging environment for educational stakeholders.
 - Saudi Geological Survey - Developed interactive spatial layouts to boost engagement and visual storytelling.
 - High Commission for Industrial Security - Led creative rebranding through spatial design and identity implementation.
 - Olympiad of Creativity (Mawhiba) - Designed immersive event experiences attended by over 15,000 participants.
 - Participated in on-site supervision, ensuring accurate execution of design plans and providing hands-on guidance to implementation teams.
- Senior Architect** Nov 2023 - July 2024
Art Of Architecture
Riyadh, Saudi Arabia
 - Lead Design Development for architectural projects, from concept through construction documentation, ensuring alignment with client goals and project feasibility.
 - Conduct technical reviews of all design deliverables, reducing design errors and RFIs by over 30% through rigorous QA/QC processes.
 - Collaborate with construction managers and site engineers, resolving design conflicts during construction phase and ensuring zero critical delays due to architectural issues.
- Architect & Interior Designer** Nov 2021 - Nov 2023
Al-Bahr Al-Fayyad Engineering and Contracting Establishment
Hadhramaut, Yemen
 - Managed and coordinated multidisciplinary design teams of up to 20 professionals, including architects, interior designers, MEP engineers, and contractors, to deliver projects within scope and deadlines.
- Architect & Interior Designer** Feb 2021 - Nov 2021
Wasm For Engineering Consulting & Design
Hadhramaut, Yemen
 - Delivered fully integrated architectural and interior design solutions that improved space efficiency by 30% and enhanced user experience, based on post-occupancy evaluations.
- Architect & Interior Designer** 2020 - 2021
Freelancer
 - Spearheaded the interior fit-out of over 10,000 sqm of built space, specifying custom materials, furniture, lighting, and finishes aligned with sustainability and cost-efficiency goals.
 - Oversaw BIM modeling and visualization (Revit, 3ds Max, Enscape), reducing design conflicts and rework by 35%, and accelerating client approvals by 25% through immersive presentations.
 - Maintained consistent on-time project delivery (95% track record) and reduced design change orders by up to 40% through rigorous design reviews and early-stage stakeholder engagement.
