

FATIMAH ALMATROOD

Interior Design Engineer

+966558081606 FatimahMalik@outlook.sa Eastern Province, Saudi Arabia

SUMMARY

Entry-level Interior Design Engineer with a bachelor's degree from Imam Abdulrahman Bin Faisal University, accredited by the Saudi Council of Engineers and licensed as a freelance practitioner by the Ministry of Human Resources. Proficient in AutoCAD, Revit, 3ds Max (V-Ray & Corona), Photoshop, and Microsoft Office, with hands-on experience through freelance projects and internships. Strong foundation in space planning, interior detailing, material selection, color theory, and lighting design, with a keen eye for showroom aesthetics and customer-centric design. Eager to contribute creative design solutions, collaborate with sales and installation teams, and enhance customer experience through visually compelling showroom environments.

EXPERIENCE

Interior Design Freelancer Remote
Self-employed 08/2024 - 12/2024

- Executed 3 residential projects aligning designs with client preferences and functional requirements, supporting purchasing decisions through clear visual presentations.
- Conducted a site visit to assess spatial constraints and propose practical design adjustments.
- Generated floor plans and 3D renderings using CAD and BIM, enhancing client engagement and minimizing design revisions.
- Developed building facade concepts integrated with architectural design.
- Selected materials, finishes, and furniture for medium-budget projects, balancing quality with cost-efficiency.
- Compiled comprehensive technical documents for lighting, ceilings, and electrical layouts, supporting smooth on-site execution.

Interior Design Intern Safwa
Almeer Engineering Office 09/2022 - 09/2022

- Assembled a mood board and curated material selections tailored to client requirements.
- Designed a workspace floor plan that optimized layout and efficiency for office use.
- Contributed to the design and 3D visualization of a restaurant project, enhancing client presentations and facilitating approval.
- Collaborated with team members to align design proposals with client expectations and business goals.

Interior Design Intern Qatif
M Designs 07/2022 - 08/2022

- Prepared a mood board and assisted in preparing client presentation materials.
- Created a floor plan and modeled architectural elements in Revit, streamlining workflow and improving drafting accuracy.
- Produced 3D renderings for 3 projects, enhancing design communication and client decision-making.
