Personal Information

Al Khobar – Dammam , Saudi Arabia | 0556954909 | alaahamid919@gmail.com
| Information Technology and Computing (Computing with Business)

Objective

I am seeking a cooperative training opportunity to enhance my technical and practical skills in a dynamic environment that fosters growth and learning. I hold an academic background in programming, database management, and business. I am passionate about data analysis and artificial intelligence, and I aim to gain hands-on experience by working with professional teams that contribute to building my career path. My aspiration is to be part of an organization that promotes development and continuous improvement.
