

KHAYYAL NASSER ALBALAWI

Architectural Designer | Interior Designer

Tabuk, Saudi Arabia | Phone: +966544545217 | Email: khaialnk.2@gmail.com | LinkedIn: [KHAYYAL](#)

PROFESSIONAL SUMMARY

Detail oriented Architectural and Interior Designer with a Bachelor's degree in Interior Design (GPA 4.58/5.00) and hands-on experience spanning architectural plan development, interior space planning, municipality permit licensing, and technical drafting. Proven track record coordinating multidisciplinary residential, commercial, hospitality, and industrial projects, including factory design in compliance with MODON regulations. Skilled in translating client visions into high-quality technical drawings, realistic visualizations, and building regulations-compliant design solutions.

PROFESSIONAL EXPERIENCE

Architectural Designer | Memarion Tabuk

Nov 2025 – Present

- Develop accurate architectural plans, detailed technical drawings, and aesthetically compelling building façade designs.
- Meticulously review municipality regulations and systematically coordinate with Licensing, Planning, and Design Studio departments to ensure smooth and successful permit approvals.
- Prepare comprehensive permit submissions, design revisions, and professional construction documentation.
- Directly contribute to a diverse portfolio of over 20 residential, commercial, hospitality, and industrial projects.
- Lead design processes for factory projects, applying solid technical knowledge of MODON regulations and industrial design constraints.

Interior Designer | Artists Lines

Jul 2025 – Nov 2025

- Designed and customized spatial layouts for high-end residential and commercial interior projects.
- Confidently led productive client design meetings, delivered engaging design presentations, and formulated tailored project proposals.
- Developed exhaustive working drawings, selected refined material palettes, designed optimized furniture layouts, and produced high-quality, photorealistic visualizations.

Interior Design Intern | Afyaa Engineering Consultancy

Jan 2025 – Apr 2025

- Supported design development, structured spatial planning, and finalized professional CAD documentation.
- Actively participated in constructive on-site visits, structural inspections, and cross-functional project coordination.
- Assisted senior architectural and interior designers throughout all phases of project development and execution.
