SUMMARY

Passionate and detail-oriented Architect with strong experience in architectural design, 2D/3D drafting, and visualization. Skilled in developing innovative, functional, and aesthetically pleasing architectural solutions for residential and commercial projects. Proficient in AutoCAD, Revit, and other design tools with a solid understanding of construction methods, materials, and building codes. Excellent at space planning, problem solving, and working collaboratively with clients and project teams. Seeking to grow and thrive in a full-time architecture role.

WORK EXPERIENCE

Interior Designer / Sales – Bayt Alebaa Co

June 2022 - May 2025

- Interior design for clients including concept development and space planning
- Sales responsibilities involving client material selection and company product promotion - Communicating with external vendors and design offices to align with client needs
- Conducting site visits and providing full 2D/3D design presentations
- Worked on SAP and SAP Plus systems for material and client tracking
- Assisted marketing efforts through graphic design support
- Provided professional consultation in the showroom, helping clients select suitable products for residential or commercial spaces.
- Achieved monthly sales targets by combining design expertise with persuasive communication skills.
- Supervised on-site installations and ensured timely project completion with high attention to detail.
- Maintained client relationships and ensured satisfaction through after-sales support and follow-ups.

Interior Design Intern – Bader Aldamegh Office

Sep 2021 – Dec 2021

- Assisted in preparing design drawings and mood boards
- Participated in client meetings and design discussions
