🌟 Professional Summary

Creative and detail-driven Architectural Engineer with over 8 years of experience in architectural design, planning, and execution of residential, commercial, and industrial projects. Adept in combining innovative design with strong engineering principles to create sustainable, functional, and aesthetically pleasing spaces. Proficient in AutoCAD, Revit, SketchUp, 3D Max with Corona Renderer, and Photoshop. Proven track record of working collaboratively with cross-functional teams, ensuring compliance with building codes, safety regulations, and client expectations. Enthusiastic about modern architecture, interior design trends, and sustainable construction technologies.

🔧 Core Competencies

- Architectural & Urban Design
- 3D Modeling & Visualization
- CAD/BIM Drafting & Detailing
- Sustainable Design Practices
- Project Lifecycle Coordination
- Construction Quality Assurance
- Team Collaboration & Communication
- Software: Revit, AutoCAD, SketchUp, 3D Max, Corona Renderer, Photoshop

🏢 Professional Experience

Architectural Engineer
Kiyaf Afnan Est., Riyadh, Saudi Arabia
October 2021 – October 2023

- Developed architectural drawings and detailed 3D models for residential and commercial buildings.
- Participated in site inspections and quality assurance to align design intent with execution.
- Reviewed shop drawings for compliance with Saudi building codes and project specifications.
- Supported cross-functional project teams and maintained effective communication with contractors.

Intern Architect
Ministry of Urban Planning, Khartoum, Sudan
2017

- Supported architectural planning for public and private sector projects.
- Created 2D and 3D designs using AutoCAD, Revit, and 3D Max.
- Assisted in preparing presentation boards and conceptual visuals for client meetings.

Education & Certifications

- Bachelor's Degree in Architecture – Bahri University, Sudan (2017)
- Revit Professional Certification – (2017)
- Interior Design Training Course – (2024–2025)

Professional Memberships

- Saudi Council of Engineers – Application Under Process
