JUNIOR ARCHITECT / INTERIOR DESIGN

I am a proficient Junior Architect and Interior Designer with a strong focus on delivering design precision and functional outcomes. Currently based in the technical office, I am actively engaged in the technical development of multiple residential projects, covering both interior and exterior scopes. My responsibilities include producing detailed drawings, coordinating with various engineering disciplines, and aligning closely with the design team at the home office to ensure design integrity and constructability. I utilize clash detection tools in Navisworks to identify and resolve conflicts early in the design process, contributing to streamlined project delivery. I am highly proficient in Revit, 3ds Max, and Navisworks, and bring a solutions-oriented mindset, strong attention to detail, and a collaborative spirit to every project phase.

PROFESSIONAL EXPERIENCE

Naga Architects | Sodic West, Beverly Hills

Junior Architect

DEC 2024 - Current
