Profile

Computer & Information Technology (CIT) senior student at KFUPM – Dammam Community College, passionate about the SAP ecosystem with interest in both the functional and technical sides. Completed an internship at Rezayat Group – RITCCO as an SAP Business Analyst where I developed digital solutions using SAP, Microsoft Power Platform, and automation tools. Now aiming to grow into an SAP consultant or developer role by combining business understanding with strong technical skills.

Projects

SAP Access Request Workflow System

Built with Power Apps, Power Automate, and SharePoint

- Multi-level approval flow (1 to 3 levels)
- Dynamic SharePoint tracking, HTML email notifications, and user autofill
- Designed for enterprise use and offered as freelance solution

HR Dashboard – Power BI

- Visualized data from Excel for HR department
- Implemented sorting logic using DAX
- Used for management insights and decision-making

Employee Active Report – ABAP

- Retrieves employee data filtered by nationality and status from multiple infotypes
- Optimized performance with internal tables and FOR ALL ENTRIES

SAP Interaction Tracker – Excel + Power Automate

- Dropdown-driven UI for logging interactions

- Auto-validation, centralized results tracking, and one-click submission

Saqeel – Car Cleaning Services & Booking Platform

Capstone Project

Built a web platform for booking car wash services and purchasing car care products. Users can request mobile or in-station services, view nearby wash stations, and shop online. The admin panel enables full control over services, products, and bookings.
