Professional Summary

Operations and Warehouse Professional with 8+ years of experience across Saudi Arabia, UAE, and Egypt in warehouse operations, inventory control, logistics, and supply chain management. Experienced in managing receiving, storage, replenishment, stock accuracy, inventory audits, and warehouse activities while ensuring compliance with operational procedures and service standards. Skilled in KPI monitoring, process improvement, cross-functional coordination, and optimizing operational efficiency. Proficient in SAP EWM, ERP systems, RFID technology, WMS, and Microsoft Excel, with a strong focus on inventory integrity and operational excellence.

Work Experiences

Saudi Ceramics – Saudi Arabia

Seniore Warehouse Supervisor | *Sep 2025 – Present*

Oversaw daily warehouse operations including receiving, storage, picking, staging, and inventory movements to ensure efficient material flow and operational continuity. Managed transfer orders and monitored transactions through ERP RFID and WMS systems while maintaining stock accuracy and inventory integrity. Monitored warehouse performance, KPIs, and compliance with operational procedures to improve productivity and minimize discrepancies. Coordinated warehouse activities, assigned daily workloads, and supported continuous improvement initiatives to ensure high service levels and operational efficiency.

Majid Al Futtaim Company – Saudi Arabia

Warehouse Supervisor | *Sep 2023 – Aug 2025*

Manage daily warehouse operations and inventory movements to ensure product availability and efficient material flow. Coordinate STO requests, stock replenishment, and transfer activities while maintaining accurate system transactions through SAP and ERP systems. Monitor inventory accuracy through cycle counts and stock audits, investigate discrepancies, and support periodic physical inventories. Ensure proper storage, stock rotation, and

compliance with operational procedures to improve warehouse productivity and minimize inventory losses. Collaborate with warehouses and cross-functional teams to support timely replenishment and maintain high service levels while tracking KPIs and supporting continuous improvement initiatives.

Inditex – Dubai, UAE

Warehouse Associate | *Jun 2021 – Aug 2022*

Manage STO and replenishment requests from central warehouses to ensure 100% product Availability across showrooms. Lead showroom revamping and commercial planogram execution of new product arrivals instantly upon stock availability. Audit showroom displays (Titles & sanitary ware) to ensure perfect presentation, price tags, and readiness. Supervise Cash & Carry operations, tracking fast-moving items and daily stock movements to prevent out of stock situation. Prepare showrooms for periodic stock takes and inventory audits, maintaining high system accuracy.

Azadea Group – Egypt

Logistics & Fulfillment Specialist | *Jul 2019 – May 2021*

Performed cycle counts, stock reconciliations, and physical inventory audits to maintain inventory accuracy.

Monitored inventory transactions and investigated discrepancies to ensure reliable stock records.

Utilized ERP systems and retail technologies to support inventory control processes and warehouse operations.

Collaborated with operations teams to maintain stock availability and improve inventory performance.

Azadea Group – Egypt

Warehouse Specialist | *May 2017 – Jun 2019*

Managed logistics operations and coordinated inbound and outbound shipments to ensure timely and efficient movement of goods. Collaborated with suppliers, customers, and internal teams to maintain service levels and optimize supply chain performance. Utilized logistics systems and reporting tools to monitor operational activities and improve efficiency. Supported inventory availability and maintained compliance with company procedures and quality standards while contributing to continuous process improvement.
