

HAMZA ISHRAT

Logistics & Mechanical Engineer

Jeddah, Saudi Arabia | +966 59581 7880 | hamzaibnishrat@gmail.com

Member, Saudi Council of Engineers (SCE #1131955, valid Apr 2026) | Driving License (KSA)

PROFESSIONAL SUMMARY

Result-driven **Logistics & Mechanical Engineer** with 5+ years of cross-functional experience spanning air freight operations, supply chain coordination, and mechanical quality control. Adept at ensuring regulatory compliance (IATA/DG), streamlining inventory processes, and improving operational accuracy. Known for blending engineering discipline with logistics efficiency to deliver consistent, deadline-driven results. Currently seeking to leverage this dual-domain expertise in a mid-level operations or technical role

Result-driven Logistics & Mechanical Engineer with 3+ years of cross-functional expertise in:

- Air Freight Operations & DG Compliance (IATA/IACO)
 - Supply Chain & Inventory Control
 - Mechanical QC & Production Engineering
 - Vendor Management & Cost Optimization - Combines strong technical acumen (AutoCAD / SolidWorks) with hands-on experience in audit, documentation, and team leadership. Seeking to leverage both logistics and mechanical backgrounds into a mid-level supervisory role.
-

CORE COMPETENCIES

- | | |
|------------------------------------|-----------------------------------|
| • Air Import/Export Coordination | • Mechanical Inspection & Testing |
| • Dangerous Goods Handling | • Vendor & Cost Negotiation |
| • Freight & Route Optimization | • AutoCAD & SolidWorks |
| • Warehouse & Inventory Management | • Lean Six Sigma Green Belt |
| • QA / QC Systems & Audits | |
-

PROFESSIONAL EXPERIENCE

Saudi Bulk Transport Co. – Logistics Operation Supervisor

King Abdulaziz Int'l Airport, Jeddah | May 2023 – Present

- Lead daily air freight operations: prepare/verify AWBs, DG declarations, invoices, and customs docs.
- Coordinate with CARGO/flight control teams to optimize dispatch schedules for AOG & non-AOG shipments.
- Ensure 100% IATA/DG compliance for packaging, labelling, handling.
- Monitor inbound/outbound traffic, assign fastest routes to drivers, track shipments to delivery.
- Liaise with customs, cross-dock warehouses, and international stations to ensure seamless cargo flow.
- Manage inventory: track stock levels, reorder points, and update material management systems.
- Review billing and shipping costs to enforce budgetary constraints.

Muasasa Al Maasa – QC Engineer

Al Ahsa, Saudi Arabia | Jun 2022 – Apr 2023

- Designed and implemented mechanical QC processes to meet client specifications (MIR/WIR).
- Developed quality control plans, conducted material inspections, and tracked non-conformance.
- Liaised with clients, subcontractors, and consultants to ensure safety and regulatory compliance.
- Prepared technical reports and presented progress/status updates to senior management.

MacPower Machines Ltd. – Mechanical & Production Engineer

Gujarat, India | Jan 2019 – May 2022

- Monitored production lines to meet mechanical assembly standards; recommended process improvements.
- Conducted internal/external QA/QC audits; built quality management system from scratch.

- Oversaw heat exchanger and vessel maintenance, coordinating with vendors on parts/tooling costs.
 - Provided technical support during bidding/proposal stages to ensure compliance with client specs.
 - Managed project timelines and prepared daily/weekly progress reports for clients.
-

EDUCATION

M.Tech in Mechanical Engineering (Production & Industrial)
Sharda University, Greater Noida, India

B.Tech in Mechanical Engineering
Integral University, Lucknow, India

CERTIFICATIONS

- Lean Six Sigma Green Belt
 - EASA MOE / FAA Repair Station / GACA RSQCM
 - Hazardous Materials SDS & TDS Awareness
 - Welding Technology / AutoCAD / SolidWorks
 - Product Design / Fire Safety & Protection
-
