OBJECTIVE

Seeking a challenging position in a reputable scientific or industrial organization where I can apply my knowledge of chemistry, laboratory skills, and analytical abilities to contribute to research, quality control, and product development. Eager to develop my expertise in chemical analysis and laboratory technologies while supporting team goals and ensuring high standards of safety and accuracy.

EDUCATION

King Abdulaziz University – College of Sciences

Bachelor's Degree in Chemistry | Graduation Year: 1446

GPA: 4.02 / 5.00 – Very Good

EXPERIENCE

Ministry of Interior (Forensics Department) – Training

- Accurately documenting procedures and results to maintain evidence integrity.
- Collaborating with investigation teams to provide technical support and chemical analysis.

Australian-Arabian Laboratory Services Co. Ltd. – Training

- Preparing samples for laboratory testing using advanced tools and techniques.
- Operating and maintaining lab equipment such as ICP under technician supervision.
- Following safety protocols and ensuring their application in the laboratory environment.

SKILLS

- | | |
|--------------------------------|---|
| ○ Analytical thinking | ○ Time management |
| ○ Laboratory techniques | ○ Teamwork |
| ○ Chemical data interpretation | ○ Problem-solving |
| ○ Quality control | ○ Familiarity with instruments: UV, IR, ICP-OES, AAS, XRF |
| ○ Communication | |

COURSES

- Food Safety Management System Requirements (ISO 22000) Al-Ghad Ajmal Training Institute
- Introduction to Ion ChromatographyCHEMINARVirtual workshop in cooperation with Neyzak Systems Training Center

Volunteering

- World Day for Safety and Health | WorkKing Abdulaziz University
- Scientific Security SymposiumKing Abdulaziz University - as part of the “Be Aware” initiative under the slogan “Prevention in University Environments”

LANGUAGES

- Arabic - English.
