Professional Summary

Diploma student in **Cybersecurity** (expected graduation 2027) with a strong passion for digital protection and security risk management. I possess a solid foundation in information security through in-depth study of networks and **Linux** systems, with a focus on best practices for securing data and infrastructure. I have undergone specialized training in vulnerability analysis and cyber threat detection, with the ability to implement effective security solutions. My advanced analytical skills, developed through work in precise technical environments, enable me to understand complex systems and identify their weaknesses. I am committed to staying updated with the latest developments in cybersecurity and strive to apply academic knowledge to real-world security challenges. I can interpret and clearly explain complex security concepts while maintaining full adherence to digital protection standards and cybersecurity policies. My goal is to contribute to building more secure systems by combining technical knowledge and analytical skills to counter evolving cyber threats.

Education

- **Diploma in Cybersecurity (Expected Graduation: 2027)**
- **Diploma in Mechanical Production | Technical and Vocational Training Corporation**

Professional Experience

Mold Maintenance Technician (Trainee) | Jamjoom Medical Industries Factory

- Performed preventive and corrective maintenance for molds used in production lines.
- Operated lathe and welding equipment in compliance with industrial quality standards.
- Contributed to the manufacturing of medical and plastic devices in a sterile production environment.
- Prepared periodic maintenance and inspection reports.

Customer Service Representative | Saudi Telecom Company (STC) | Seasonal Role

- Processed customer requests and inquiries with accuracy.
- Provided appropriate solutions to technical and service-related issues.
- Followed up on pending cases to ensure timely resolution.
- Entered and updated customer data in the system.

Customer Service / Crew Member | McDonald's | 1 Year

- Delivered service according to quality standards.
- Assisted in maintaining a clean and organized workspace.
- Operated POS systems and processed transactions.
- Collaborated with team members to maintain workflow efficiency.

Training Courses

- **Linux** | Tuwaiq Academy | Aug 2025
- **Networking Fundamentals** | Tuwaiq Academy | Jul 2025
- **Network Security** | Tuwaiq Academy | Jul 2025
- **Cybersecurity Fundamentals** | Tuwaiq Academy | Jun 2025
- **CompTIA A+ | Cisco**
- **CCNA | Cisco**
- **Office Programs** | 2022

Skills

Soft Skills: Effective Communication | Negotiation | Creativity | Time Management | Adaptability | Teamwork | Problem Solving | Analytical Thinking | Task Management | Attention to Detail | Workplace Adaptability.

Practical Skills: Maintenance Management | Technical Report Preparation | Lathe Operation | Welding | Quality Inspection | Customer Handling | Operational Process Monitoring | Sales Management | Inventory Control | Customer Service | Workplace Organization | Technical Support | Data Management.

Technical Skills: HW Troubleshooting | OS Installation & Configuration (Windows, Linux) | CAD | CAM | CNC Programming | Network Configuration & Troubleshooting (CCNA Level) | Network Security Fundamentals | Linux Administration | Cybersecurity Fundamentals | Industrial Safety Systems | MS Excel | MS Word | MS PowerPoint | POS Systems.
