SUMMARY & OBJECTIVE

As a Computer Science graduate, I bring hands-on experience in data analysis and performance reporting from my internship at Saudi Aramco. Skilled in Excel and Power BI, I'm passionate about data analytics, cybersecurity, and digital transformation. I thrive in collaborative environments and strive to contribute to impactful tech initiatives. I am actively seeking opportunities to apply and expand my skills through real-world projects and continuous learning.

EXPERIENCE

Saudi Aramco | Saudi Arabia

Intern - TOC Planning & Performance Management Division | 2024.

- Analyzed operational and performance data using Microsoft Excel and Power BI.
- Supported the development of data-driven analytical models to enhance decision-making.
- Prepared regular performance reports and provided actionable improvement insights.
- Assisted the team with the coordination of planning and performance initiatives.
- Completed technical training programs offered by Saudi Aramco to build domain expertise.
- Collaborated with cross-functional teams to gather, clean, and validate data for analysis.
- Monitored KPIs and performance trends to identify efficiency opportunities.
- Contributed to the documentation of workflows and process optimization suggestions.

EDUCATION

University of Tabuk | Saudi Arabia

Bachelor's Degree in Computer Science | 2025.

- Designed and implemented software applications using Python and Java.
- Developed and optimized SQL queries for relational databases.
- Conducted system analysis to evaluate software performance.
- Collaborated in agile team projects to deliver functional prototypes.
- Participated in debugging and troubleshooting code across various platforms.

OTHER

● Courses and Certifications:

- Guided Learning Experience -Using Generative AI for Software Development | Shaqra University - IBM | July 2025.
- Data Analysis Using Excel | Online | AlMasar | 30 Hours | December 2024.
- Power BI | Online | AlMasar | 30 Hours | December 2024.
- Google Developer Student Club | King Abdulaziz University | July 2022.
- Fiber Optic Technology and Internet Speeds | Doroob | December 2020.

● Hard Skills:

- Programming: Python, Java.
- Database Management: SQL.
- Data Analysis Tools: Excel, Power BI.
- Software Development Principles.
- Learning: Cybersecurity, Data Analytics.
- Learning: Web Development.
- Microsoft Office Suite.

● Soft Skills:

- Problem-Solving.
- Critical Thinking.
- Effective Communication.
- Time Management.
- Collaboration and Teamwork.
- Flexibility and Adaptability.

● Languages: Arabic, English.

● Recommendation:

- Received a formal letter of recommendation | Saudi Aramco | for demonstrating a high level of professionalism, efficiency, and commitment in successfully completing all assigned tasks.
